# AbhiBus Partners with Uber to Power Intercity Bus Bookings on the Uber App

*From Left to Right: Rohit Sharma, COO, AbhiBus; Lenin Koduru, CEO, AbhiBus; Praveen Neppalli Naga, Chief Technology Officer, Uber; Manikandan Thangarathnam, Senior Director (Mobility & Platforms), Uber India*

**Gurugram, India, 9th March 2026:** AbhiBus (ixigo's bus business), one of India's leading online bus ticketing platforms, has partnered with Uber to power **intercity bus ticket bookings** within the Uber app.

Uber users across India can now book intercity bus tickets directly within the app, leveraging AbhiBus's robust inventory and booking technology. Through this partnership, users gain access to AbhiBus's extensive network of over 6 lakh routes operated by over 6,200 bus operators nationwide.

To book, users can navigate to the Home or Services section on the Uber app and select the "Intercity" option. After entering their origin, destination and travel date, they can browse available bus services, choose preferred seats and complete their booking smoothly within the app using integrated payment options.

Powered by AbhiBus's end-to-end booking technology and deep operator integrations, Uber users can discover and compare bus options, check real-time seat availability and select preferred seats directly within the app. They can also filter by bus types such as AC, Sleeper, Seater, Volvo and Scania, view 360° bus photos on select routes, track live bus status, opt for Abhi Assured with defined compensation benefits in case of service disruptions, and access 24×7 customer support. The partnership expands

Uber's mobility ecosystem beyond intra-city rides by integrating bus travel into a single app, enabling users to plan both short-distance and intercity journeys seamlessly.

Speaking on this, **Rohit Sharma, COO, AbhiBus**, said, *"This partnership with Uber represents a significant milestone for intercity travel in India. By integrating AbhiBus's deep operator network and booking technology into the Uber app, we are bringing over 6 lakh routes directly to millions of users - making bus travel discovery as seamless as booking a cab. With Uber's reach and AbhiBus's deep expertise in powering seamless bus travel experiences, we are setting a new benchmark for how India books its intercity journeys."*

**Praveen Neppalli Naga, Chief Technology Officer, Uber**, added, *"We are excited to partner with AbhiBus and bring intercity bus travel into the Uber app. At Uber, our mission is to make movement seamless for everyone and integrating AbhiBus's extensive bus network directly into our platform is a natural extension of that vision. AbhiBus brings unmatched depth in bus inventory and operator integrations, and together we are unlocking a new dimension of mobility for millions of Indians."*

With this partnership, AbhiBus further strengthens its footprint in powering intercity bus travel across diverse platforms, making seamless and reliable bus booking more accessible to millions of travellers.

**About AbhiBus**

AbhiBus is a leading online bus-ticketing platform that aggregates ticket inventory from over 6,200 bus operators - including major State Road Transport Corporations (SRTCs), covering more than 6.5 lakh (650,000+) routes across India. The AbhiBus website and apps allow users to check amenities provided by bus operators, compare booking fares, check bus timings in the searched route, live tracking of the bus before arrival, cancellation protection options and other facilities. It is the official ticketing partner for several state road transport corporation bus tickets and IRCTC bus bookings.

AbhiBus is owned and operated by **ixigo (Le Travenues Technology Limited)**, India's leading OTA for the Next Billion Users. With over 54 crore Annual Active Users in FY25, ixigo offers AI-powered train, flight, bus, and hotel bookings through its platforms - ixigo, ConfirmTkt, and AbhiBus.
