VST Tillers Tractors Ltd. Showcases Future-Ready Engineering Excellence at EXCON 2025

Bengaluru, 12th December 2025:

VST Tillers Tractors Ltd., one of India's most trusted engineering and manufacturing brands with a legacy of over five decades, showcased its advanced technological strengths and precision-engineered solutions at **EXCON 2025**, held at Bengaluru. VST is showcasing its evolution from a leading farm equipment manufacturer to a diversified engineering powerhouse catering to multiple global industries at the exhibition.

At EXCON, VST Tillers Tractors Ltd. showcased a comprehensive lineup of **3-cylinder and 4-cylinder compact engines ranging from 17 HP to 30 HP** alongside a series of precision components designed for high-demand applications. The showcased solutions have gained strong acceptance across varied segments, including construction and earthmoving equipment, DG sets, marine applications, reefer units and cold chain logistics, hospitals, sports complexes, and other institutional power requirements reducing dependence on import of such engines and contributing to self-reliance for the country. With growing capabilities and investments, the company's **state-of-the-art Mysuru manufacturing unit** is also expanding into new industrial segments, strengthening VST's role as a preferred supplier for high-performance engines, driveline units, and precision components.

A major attraction at the stall was VST's iconic **13 HP horizontal engine**, at one side the Engine is used in Power tillers supporting Farm mechanization for small and marginal farmers on other side it is widely regarded as the most trusted engine in the country for powering concrete cutter machines and construction equipment industry. Its industry leadership directly ties into India's expanding infrastructure development momentum. With the Ministry of Road Transport and Highways reporting rapid growth in road construction and infrastructure upgrades nationwide, VST's engines have become a silent enabler, powering machines that build high-quality roads and thereby supporting India's infrastructure transformation.

The displays highlighted VST's journey into new territories where performance, fuel efficiency, and durability are essential.

Mr. Antony Cherukara, CEO of VST Tillers Tractors Ltd., commented on the company's evolving technology leadership stating "VST is undergoing a significant transformation driven by design thinking-led innovation, high-quality precision engineering, and product modernization for global markets. Our focus is to create lasting value through technology, sustainability, and continuous building. The Global Technology Center in Hosur is a major part of this journey, to advance our expertise in future engines, driveline technologies, EV systems, and next-generation precision components. With these advancements, VST is positioning itself as a truly Fast – Frugal and Future-Ready solutions provider for India and the world."

VST's reputation for superior engineering and world-class quality was underscored by the recognition the company has earned over the years. The organization has consistently been honored with highly regarded awards such as the CII Design Excellence, Manufacturing Excellence and Super shopfloor Award , also Mitsubishi Heavy Industries Quality Award for continual improvements and for the new product development, These accolades reaffirm VST's unwavering commitment to robust design thinking, disciplined manufacturing, and long-term product reliability – hallmarks that continue to inspire confidence among OEMs and industry partners in India and abroad.

About VST Tillers Tractors Ltd:

VST Tillers Tractors Limited (VST) is India's leading farm equipment manufacturer. VST was established in the year 1967 by the VST Group of companies. With a legacy of more than 57 years, VST continues to drive farm mechanization and empowerment of Indian farmers. The organization is the largest Indian manufacturer of Tillers, pioneer of 4WD Compact Tractors, and amongst the leading producers of the other category of Tractors, Engines, Transmission, Power Reaper, and Precision Components. VST also exports products to > 40 European, Asian, and African markets. For more details, please visit <https://www.vsttractors.com/>.
