Press Release

Flomic Global Logistics Successfully Executes Complex Steel Plant Project Cargo from India to Nigeria

Mumbai, March 04, 2026: Flomic Global Logistics Ltd., an integrated logistics and freight forwarding company with over three decades of experience in handling complex global cargo movements, has successfully executed the shipment of critical industrial machinery for a steel melting plant from India to Nigeria. The project highlights Flomic's growing capabilities in handling specialized project cargo and heavy industrial logistics across international routes.

The complex project cargo operation involved the transportation of equipment forming a complete production line for a 500 TPD DRI (Sponge Iron) plant, demonstrating Flomic's expertise in handling heavy and high-value industrial cargo.

The shipment originated from Mumbai Old Port, India, and was delivered to Lagos, Nigeria (West Africa) under CIF terms. The cargo consisted of 115 packages with a total gross weight of 850,595 kilograms and a volume of 1,120.902 CBM, with an overall cargo value of approximately USD 3.04 million.

The cargo comprised specialized machinery and installation accessories required for establishing a steel melting plant, making precision handling and coordination critical throughout the logistics process.

Flomic's scope of work included international ocean freight planning, vessel coordination, specialized handling of heavy machinery, and rigorous supervision of lashing and on-ground operations to ensure safe transit. The shipment was successfully executed aboard the vessel MV Ultra Agulhas, ensuring timely and secure delivery of the cargo.

Commenting on the successful execution, Lancy Barboza, CEO & Managing Director, Flomic Global Logistics Ltd., said:

"Executing complex project cargo of this scale requires meticulous planning, technical expertise, and seamless coordination across multiple stakeholders. This successful shipment from India to Nigeria highlights Flomic's capability to manage heavy and high-value industrial cargo with precision and reliability. We remain committed to delivering world-class logistics solutions that support large industrial projects and global trade."

With a pan-India network of branches, warehousing infrastructure, and strong global logistics partnerships, Flomic continues to support complex industrial cargo movements and large-scale project shipments across international markets.

About Flomic Global Logistics Ltd.

Flomic Global Logistics Ltd. is an integrated logistics and freight forwarding company offering end-to-end supply chain solutions across air, sea, and land transportation. Founded in 1988 and listed on the BSE, the company operates an asset-light, scalable logistics platform supported by a strong global partner network. Flomic provides a wide range of services including ocean and air freight forwarding, project cargo and break-bulk logistics, customs broking, warehousing, transportation, and specialized logistics solutions.

With a network of 30 branches and 25+ warehouses across India, Flomic serves 5,000+ active customers across SME and enterprise segments. The company has handled over 32,000 shipments during the nine months ended December 2025, supported by a workforce of more than 545 professionals and technology-enabled operations that deliver efficiency, visibility, and reliability across the supply chain.
