RRP Defense Limited Joins Hands with Israel's McTech Through Strategic Joint Venture to Bring Advanced Anti-Drone Technologies to India

Mumbai, 16 November 2026: In a significant step towards strengthening India's defence and security capabilities, RRP Defense Limited (BSE: 530929), a listed company of the RRP Group, has entered into a strategic joint venture with Israel-based McTech to introduce advanced Anti-Drone and Counter-Unmanned Aircraft Systems (C-UAS) technologies in India.

As drone technology continues to evolve, its use in modern warfare and security operations is growing rapidly. While drones are creating new possibilities, they are also bringing new challenges. The ability to detect, counter and neutralise potential drone threats has therefore become increasingly important for India's defence and security forces.

Bringing Advanced Global Technology to India

McTech Israel brings valuable technological expertise and a wide range of advanced anti-drone solutions designed to address different operational requirements. Its technologies can be customised to meet the specific needs of defence forces and other security agencies.

Through this partnership, RRP Defense aims to make these advanced solutions accessible to the Indian market while building a strong foundation for long-term collaboration. Beyond introducing global technologies, the partnership will also explore opportunities for technology localisation, indigenous manufacturing and Make in India initiatives.

RRP Defense has already been recognised as an active vendor for offering these solutions, marking an important beginning for the company in this growing segment.

Strengthening RRP Defense's Presence in the Defence Sector

RRP Defense Limited (BSE: 530929) is a listed defence manufacturing company and part of the RRP Group of Companies. With a growing presence in defence technologies, the company is focused on bringing advanced solutions to India through global collaborations, indigenous manufacturing and technology development.

Through its group companies and strategic partnerships, RRP Defense is building capabilities across electro-optics, surveillance systems, defence equipment and emerging defence technologies.

The association with McTech further strengthens this journey and reflects the company's commitment to identifying and bringing relevant global technologies to meet India's evolving defence requirements.

About McTech Israel

McTech is an Israel-based technology company specialising in advanced anti-drone and counter-UAS solutions. With a portfolio of technologies that can be adapted to different operational needs, the company aims to address the growing challenges posed by unmanned aerial systems.

Through its association with RRP Defense, McTech looks forward to expanding its presence in India and exploring opportunities for technology collaboration and localisation.

Looking Ahead

For RRP Group, this partnership is about more than introducing another technology to the Indian market. It is about building a long-term relationship, sharing expertise and creating opportunities to develop advanced defence solutions within the country.

As India continues to strengthen its defence manufacturing ecosystem, collaborations of this kind can play an important role in bridging global technological expertise with India's growing indigenous capabilities.

With a shared vision and a strong commitment to innovation, RRP Defense and McTech look forward to contributing to a stronger, more technologically advanced and self-reliant Indian defence ecosystem.

Global Expertise. Indian Capabilities. A Shared Vision for a Stronger India.
