3 The Company has followed same accounting policies and methods of computation in the interim financial statements as compared with the most recent annual financial statements.

4 The Company is emerging as a growing player in the tyre recycling and resource recovery industry, with a strategic focus on promoting sustainable manufacturing practices through the conversion of waste tyres into valuable products such as reclaim rubber, pyrolysis oil and carbon char. The Company is committed to contributing towards a circular economy by optimising resource utilisation and supporting environmentally responsible industrial growth in India.

5 A significant milestone in the Company's growth journey was the commencement of operations at its Rajkot manufacturing unit on 15th July 2026. The unit has demonstrated encouraging performance, achieving sales of approximately ?4 crore in the month October 2026. Further, the Company holds 25,000 accrued EPR credits, strengthening its position in the recycling and sustainability ecosystem. The Company is also progressing towards the commencement of operations at its Bhagwanpur Unit III , which is expected to become operational by January 2027. In addition, the Company has obtained the necessary import licence for importing 10,000 units of raw material, which is expected to support its raw material sourcing requirements and future production plans. These developments reflect the Company's continued focus on expanding its manufacturing capabilities, strengthening its operational capacity and enhancing its position in the reclaimed rubber and recycling industry.

6 Figures of the previous periods have been regrouped wherever necessary, to correspond with the current periods and the figures for the half year ended 31.03.26 are extracted from 31.03.26 (Audited) & 30.09.25 (Audited) financials.

S. NO	Particulars	Amount to be utilised as per prospectus	Revised Cost	Utilisation upto Sep 30, 2026	Un-utilised as on Sep 30, 2026
1	Funding the working capital requirements of our company	600	600	600	0
2	Pre-payment or Repayment of all or a portion of certain outstanding borrowings availed by our Company	2670	2670	2670	0
3	Funding Capital Expenditure for the installation of additional Plant & Machinery and	943	943	0	943
4	To meet General corporate purposes	779.84	737.99	50.98	687.01
	TOTAL	4992.84	4950.99	3320.98	1630.01

During the half-year ended September 30, 2026, the Company recorded revenue from the sale of products amounting to ₹2,817.98 lakh, as compared to ₹2,197.37 lakh in the corresponding period of the previous year, reflecting a robust growth of approximately 28.24%. This growth has been achieved through improved operational performance of the existing Bhagwanpur Unit and the commencement of commercial operations at the newly established Rajkot Unit.

The Bhagwanpur Unit , compared to 18.58% in the corresponding previous period, indicating improved operational efficiency and profitability.

The newly operational Rajkot Unit contributed revenue of ₹465.33 lakh during the half-year. The unit reported an initial operating loss of ₹55.32 lakh, primarily attributable to depreciation expenses of ₹80.73 lakh recognised during the period. The substantial depreciation charge, arising from the newly capitalised plant and machinery, has impacted the unit's initial profitability. However, the commencement of operations at Rajkot marks a significant milestone in expanding the Company's production capacity and strengthening its future revenue-generating potential.

Further, excluding the impact of EPR credit revenue, the EBITDA of the Bhagwanpur Unit increased to ₹ 584.30 lakh from ₹502.19 lakh in the corresponding previous period, registering a growth of approximately 16.35%. The EBITDA margin also improved from 22.85% to 24.84%, reflecting enhanced operating performance and better cost efficiency.

It is pertinent to note that the Company had recognised EPR credit revenue of ₹ 294.45 lakh during the half-year ended September 30, 2025, whereas no EPR credit revenue was realised during the current half-year. Accordingly, the above comparative analysis focuses on product sales and operational profitability, providing with a clearer understanding of the Company's underlying business growth, excluding the impact of EPR credit realisation.
