

KD Green Industries Limited

(earlier known as Manbro Industries Limited)

PRESS RELEASE

Shivam Pipes (subsidiary of KD Green Industries Ltd) secured ₹31.55 Crore Orders for supply of Galvanized Steel Tubular Poles to Electricity Boards and BSNL

Guwahati, April 23, 2026: Shivam Pipes, a 51% subsidiary of KD Green Industries Limited (earlier known as Manbro Industries Limited), a BSE listed company (Scrip Code: 512595) has secured orders aggregating to ₹ 31.5 crores (approx.) for the supply of Galvanized Steel Tubular Poles to north eastern state electricity boards and Bharat Sanchar Nigam Limited (BSNL).

Break up of orders comprises:

- ₹16.15 crores from various North Eastern State Electricity Boards
- ₹15.35 from BSNL

These orders have been received during the period 1 January 2026 to 31 March 2026, with a delivery timeline of 1 to 4 months, providing strong near-term revenue visibility. The orders have been awarded through contractors executing power distribution and telecom infrastructure projects for respective utilities and government agencies.

Shivam Pipes is already a registered vendor with multiple electricity utilities across North Eastern states and also a registered vendor with BSNL for supply of its Galvanized Steel Tubular Poles under the brand name 'Xtech'.

Expanding Opportunity: Power & Telecom Infrastructure in North East

The North Eastern region continues to emerge as a high-growth corridor for both **power and telecom infrastructure**, driven by strong government push and strategic investments:

Power Infrastructure

- Large-scale investments in transmission & distribution under various government schemes
- Significant hydropower and renewable energy potential
- Continued focus on rural electrification and grid strengthening

Telecom Infrastructure

A significant emerging opportunity is the **transition from underground to overground fibre deployment in challenging terrains of North East India.**

- Difficult terrain, high rainfall, and maintenance challenges are leading to **increased adoption of overhead fibre infrastructure**
- Overground fibre deployment requires **extensive use of galvanised steel poles**
- Government initiatives to improve digital connectivity and strategic communication networks are accelerating this shift

KD Green Industries Limited

(earlier known as Manbro Industries Limited)

This trend is expected to create a **new and scalable demand segment for steel tubular poles.**

MANAGEMENT COMMENTARY:

"We are pleased to secure these orders for supply to electricity boards and BSNL. Our empanelment with key utilities and with BSNL positions us strongly for future growth in both power and telecom infrastructure sectors. With continued focus on electrification and digital connectivity, demand for galvanized steel tubular poles is expected to remain strong."

ABOUT SHIVAM PIPES:

Shivam Pipes is a leading manufacturer of steel pipes and galvanized tubular poles under the 'XTech' brand. It is already registered with various north eastern state electricity boards, BSNL, PWD, etc as approved vendor. It is already supplying its products to above mentioned Government agencies and utilities. It has present capacity of 36,000 MT per annum.
