PRESS RELEASE

Yash Optics & Lens Limited Commences Production at State-of-the-Art Vapi Manufacturing Facility

13th April, 2026 Yash Optics & Lens Limited (NSE: YASHOPTICS), a growing player in the optical manufacturing segment, today announced the commencement of production at its newly commissioned, state-of-the-art manufacturing facility located at Vapi, Gujarat.

The facility has been established as part of the Company's lens casting project for the manufacturing of finished and semi-finished lenses and represents a significant milestone in the Company's growth journey.

The plant is equipped with a manufacturing capacity of approximately **10,000 pairs per day**, with scalability to **20,000 pairs per day** through marginal capital expenditure, in line with future growth plans.

Strategic Significance

The commissioning of the Vapi facility positions the Company among the early movers in India to establish manufacturing capabilities at this scale in the optical lens segment. The facility is expected to deliver multiple strategic advantages:

- **Import Substitution:** Reduction in dependence on overseas suppliers
- **Strengthening Domestic Ecosystem:** Contribution to India's optical manufacturing capabilities
- **Make in India Alignment:** Reinforcing commitment to indigenous manufacturing
- **Operational Efficiency:** Improved supply chain efficiency and turnaround time
- **Scalable Growth Platform:** Infrastructure to support future expansion

Operational Update

Production has commenced with a select range of finished and semi-finished lenses, ensuring process stability and quality consistency. The Company plans to scale up production in a phased manner, aligning with market demand while maintaining high standards of quality and operational efficiency.

Management Commentary

Commenting on the development, **Mr. Tarun Doshi, Managing Director**, said:

"The commissioning of our state-of-the-art Vapi plant marks an important milestone in Yash Optics' journey. It represents a strategic step towards domestic manufacturing of finished and semi-finished lenses, aligned with the Government's 'Make in India' initiative, in a segment currently dominated by imports.

This facility positions us to capitalize on a significant market opportunity while enhancing self-reliance and improving supply chain efficiencies. We look forward to leveraging this capability to strengthen our market presence, improve turnaround times, and deliver consistent quality to our customers."

Outlook

The Company remains focused on leveraging this new capability to enhance self-reliance, improve operational efficiencies, and strengthen its position in the domestic and international markets. The management also extends its sincere appreciation to all stakeholders and partners for their continued support and trust.
