

Rulka Electricals Ltd.

Rulka Electricals Limited Scales to

₹100+ Crore Project Portfolio

Strategic expansion across 24 concurrent projects spanning 5 states

Rulka Electricals Limited (REL) has grown to manage 24 concurrent sites with projects valued at over ₹128 crores across six states: Maharashtra, Haryana, Karnataka, Telangana, Rajasthan, Gujarat and Uttar Pradesh. The portfolio spans electrical systems, fire safety infrastructure, MEP systems, renewable energy, and specialized power solutions for Tier-1 clients including logistics operators, industrial park developers, and critical infrastructure entities.

This scale reflects REL's evolution from regional provider to multi-state platform executing complex projects across geography, scale, and technical complexity.

25	₹148 Cr.	7 States
Active Projects	Projects underway	Geographic Reach

Major Achievements

- 450th DMART completion

We have been working with DMART for a very long time, and we executed the MEP work for the completion of the 450th DMART store in India.

- ₹7 Cr work order

We secured a major electrical and firefighting works over ₹7 Crore from a private company based out of Bengaluru.

- ₹34.24 Crore

Piramal NextGen Industries • Lucknow Airport, Uttar Pradesh

HT/LT electrical infrastructure for aerospace manufacturing facility. 30% execution stage. Largest contract in portfolio — demonstrates REL capability for megaproject execution.

- ₹15.46 Crore

ILV Logistics Parks • Chakan-Pune, Maharashtra

Comprehensive MEP infrastructure for modern logistics facility in India's premier industrial corridor. Material procurement and site mobilization underway.

- ₹7.90 CRORE

RMZ I&L Project • Hoskote, Bangalore (Karnataka)

Advanced fire safety systems for mega-logistics facility. Successfully completed — demonstrates execution excellence beyond Maharashtra.

- ₹16+ CRORE

Runwal Ecosystem • Wadala, Mulund, Thane (Mumbai Region)

Fire fighting and electrical systems across premium residential and commercial developments. Multiple projects at 60–80% execution stage.

- ₹25+ CRORE

EES • Ahmedabad (Gujarat)

Survey and Installation, Erection, Testing & Commissioning of the complete E&M works and associated works for the Solar Plant.

Status of Projects

- 6 Projects at 100% Completion

RMZ Hoskote (Bangalore) • Avenue Supermarts Shahapur • Cowtown Infotech Narhen • NY Cinemas Thane • Palava Logistics Mumbai • Deerfield Logistics Narsapura

- 8 Additional Projects at 80–100% Execution

Positions REL for ₹60+ crores in near-term revenue recognition. High-value contracts at advanced stage include Runwal fire fighting installations, Horizon Industrial Parks multiple locations, and Karanje Emerald solar (90% complete).

Revenue Visibility: ₹60+ Crore from projects; 60%+ complete

Geographic Expansion

- MAHARASHTRA

16 Active Projects — Core market stronghold with presence in Chakan-Pune, Mumbai, Thane, Padgha, Satara

- KARNATAKA

4 Active Projects — Bangalore (Hoskote) and Narsapura industrial zones

- UTTAR PRADESH & HARYANA-NCR

2 active projects ; ₹34 crore Lucknow airport megaproject plus NCR logistics corridor

Capabilities

Electrical Systems

HT/LT design, infrastructure, installation, commissioning across industrial and commercial facilities

Fire Safety & Suppression

System design, installation, testing, compliance across regulatory standards

MEP Infrastructure

Integrated mechanical, electrical, and plumbing systems for modern

facilities

Renewable Energy & Power Backup

Solar installations, DG sets, UPS systems, uninterruptible power solutions

Specialized Infrastructure

Lightning protection, earthing, compliance-critical engineering systems

MARKET MOMENTUM

REL's growth from regional provider to ₹100+ crore multi-state operator demonstrates strong market demand. With six completed projects, eight in advanced stages, and ₹60+ crores in revenue visibility, the company has established operational momentum.

About Rulka Electricals Limited

REL is an engineering, procurement, and construction (EPC) firm providing infrastructure solutions to industrial parks, logistics facilities, commercial developments, and specialised infrastructure projects. Services include electrical systems, fire safety installations, MEP infrastructure, renewable energy, power backup systems, and compliance-critical engineering across India.
