Dear Sir/Madam,

Sub: PRESS RELEASE

Please find enclosed herewith Press Release on the subject '**Our Wholly Owned Subsidiary Raneal Advanced Systems Expands Unique Manufacturing Capabilities with Oversized PCB Assembly Facility**'.

Please take the same on your records.

Thanking you,

Yours Sincerely,

For **DCX Systems Limited**

Gurumurthy Hegde

Company Secretary, Legal and Compliance Officer

PRESS RELEASE

Our Wholly Owned Subsidiary Raneal Advanced Systems Expands Unique Manufacturing Capabilities with Oversized PCB Assembly Facility.

BANGALORE, 03rd MARCH 2026: DCX Systems Limited (DCX) is pleased to announce the expansion of the manufacturing capabilities with the addition of **oversized PCB assembly capacity** at its wholly owned subsidiary, Raneal Advanced Systems Pvt. Ltd. (Raneal). This strategic enhancement strengthens DCX/Raneal's ability to support complex, large-format Printed Circuit Board (PCB) requirements across high-reliability industries.

The newly enhanced capability enables the company to assemble and test **large-dimension PCBs**, catering to applications mainly in **defense & aerospace** and **industrial electronics and advanced power systems**. With this expansion, the company can now accommodate boards exceeding conventional size limitations, meeting growing customer demand for integrated and high-density electronic assemblies.

Key Highlights of the Expansion:

- Capability to handle oversized PCB assemblies upto 55 Inches in length.
- Mission Critical Backplane applications
- Advanced SMT and through-hole assembly integration
- Enhanced material handling and board support systems
- Improved process control for large-format assemblies
- Strengthened testing and validation infrastructure

This development reinforces DCX's commitment to delivering **high-quality, precision-engineered electronic manufacturing solutions**, while maintaining strict adherence to industry standards and customer specifications.

The expansion also optimizes workflow within the existing facility, ensuring improved operational efficiency without compromising on quality, reliability, or turnaround time.

Speaking on the occasion, DCX's Chairman & Managing Director, Dr. H.S. Raghavendra Rao, stated:

"This expansion reflects our ongoing investment in advanced manufacturing capabilities. By adding oversized PCB assembly capacity, we are better positioned to serve evolving customer requirements in mission-critical and high-performance electronics. Further, the company has already secured orders for about Rs. 20.00 Crores for such oversized PCB Assembly."

DCX continues to focus on capability enhancement, technological innovation, and customer-centric manufacturing excellence.

About DCX Systems:

DCX Systems Limited ("DCX"), one of the leading Indian Defence manufacturing player for manufacture and supply of Electronic Systems and Sub-Systems, Cable & Wire harness assemblies and Printed Circuit Board Assemblies for both International and Domestic reputed customers. Established in 2011, DCX Systems Limited has emerged as a key enabler of India's defence and aerospace manufacturing ambitions. Known for its excellence in manufacturing electronic systems, cable and wire harness assemblies, and printed circuit board assemblies (PCBAs), DCX plays a vital role in supporting both domestic and international defence and aerospace programs.

Operating from a strategically located facility in the Hi-Tech Defence and Aerospace Park SEZ, Bengaluru, DCX is equipped with state-of-the-art facility to deliver high-mix, high-complexity products with precision and speed. This includes a dedicated EMS facility, operated under its wholly owned subsidiary Raneal Advanced Systems, which focuses on vertically integrated manufacturing for both captive needs and external markets.

DCX's unique business model integrates end-to-end EMS solutions, with a strong emphasis on Make-in India initiatives, and partners with global OEMs while expanding into new geographies. As the preferred Indian partner of Israel Aerospace Industries (IAI) and a recognised offset partner, DCX is deepening its global relevance while strengthening India's self-reliance in defence.
