Business Update Release

Z-Tech (India) Secures EPC Order from Shimla Municipal Corporation for “Waste to Wonder Park” Development

Delhi, 10th December 2025: Z-Tech (India) - Pioneering Sustainable Infrastructure & Environmental Solutions provider pleased to announce that it has been awarded a prestigious contract from Shimla Municipal Corporation for the Designing, Fabrication, and Installation of Miniatures, Sculptures, and Thematic Structures created using scrap and waste materials at various locations within Shimla city. The project will be executed under the EPC (Engineering, Procurement & Construction) mode with a total order value of Rs. 4.51 Crore.

The proposed initiative—*Waste to Wonder Park, Shimla*—aims to turn urban waste into artistic, educational, and tourist-attracting installations that promote environmental awareness. This aligns with Shimla’s broader vision of sustainable city development and innovative waste management practices. **Significantly, this will be Z-Tech India’s first project in Himachal Pradesh, marking a breakthrough entry into a hilly terrain and a major tourist destination.**

The project encompasses the end-to-end design and development of conceptual themes using upcycled and waste materials, including the fabrication of miniatures, sculptures, and structural installations that will be strategically placed across key zones within the Shimla Municipal Corporation limits. **Being the Company’s first project in a hill region, it further demonstrates Z-Tech’s capability to execute specialized EPC assignments in challenging terrains and high-footfall tourist locations.** It will involve complete EPC execution—covering planning, engineering, procurement, fabrication, and on-site implementation—ensuring seamless delivery while supporting Shimla’s broader Smart City vision and eco-tourism development objectives.

Management Comment:

Commenting on this development, **Ms. Sanghamitra Borgohain, Managing Director, Z-Tech (India) Limited** said:

“We are delighted to partner with the Shimla Municipal Corporation for the development of the Waste to Wonder Park. This order reflects our capability and proven expertise in transforming waste into meaningful public assets through engineering creativity and sustainable innovation. Z-Tech has successfully delivered several landmark waste-to-art and urban rejuvenation projects across India, and we are proud to extend this expertise to the heritage city of Shimla. This project not only enhances the city’s aesthetic appeal but also reinforces our commitment to environmental stewardship and circular economy principles.”

Company Overview

Z-tech (India) limited is incorporated in 1994 with their core focus on civil construction business, providing services related to designing, supplying and building retaining structures. In addition to this, today we are actively engaged in the Sustainable Theme Park Development, where our focus involves creating theme parks through the utilization of recycled scrap materials. Simultaneously, we are dedicated to implementing innovative waste water management solutions for industrial units, employing the cutting-edge GEIST technology. This dual commitment underscores our holistic approach to sustainable practices, transforming discarded materials into recreational spaces while efficiently managing industrial wastewater through state-of-the-art technology.
