RateGain's UNO Channel Manager Wins "World's Best Hotel Channel Manager 2025" for Redefining Speed, Reliability, and Control in Hotel Distribution

India, 11th December 2025: RateGain Travel Technologies Limited (RateGain), a leading provider of AI-powered SaaS solutions for travel and hospitality, today announced that it has been awarded "World's Best Hotel Channel Manager 2025" at the World Travel Tech Awards, one of the highest global honors in hospitality technology. The win marks a defining milestone in UNO's journey toward building a modern, intelligent CRS that gives hotels unprecedented control, transparency, and confidence across their distribution ecosystem.

Over the years, UNO has reimaged the channel management experience by replacing legacy, fragmented workflows with a highly reliable and globally scalable distribution backbone. Its next-generation CRS architecture powers thousands of hotels worldwide, ensuring consistency in operations, lightning-fast and error-free ARI distribution, and enterprise-grade performance suited for large hotel groups and complex multi-property environments. With deep, high-quality channel connectivity and industry-leading stability, UNO has emerged as the distribution-first CRS that modern hotels rely on for revenue accuracy and operational resilience.

Bhanu Chopra, Founder and Managing Director, RateGain, said, "This award validates our belief that a strong, reliable channel manager is the heart of any modern CRS. Hotels today need precision, speed, and stability in their ARI distribution - and UNO delivers exactly that. This recognition is a tribute to the hotels that trust us, the channel partners who collaborate with us, and the teams who have built UNO into one of the world's most dependable distribution platforms."

UNO continues to expand its global presence with strong adoption across leading hotel chains, soft brands, independents, and regional groups in NORAM, LATAM, Europe, APMEA, and India. Its momentum aligns with RateGain's commitment to shaping the future of hotel distribution, advancing channel connectivity, strengthening rate and inventory governance, accelerating ARI workflows, and driving greater automation. Co-built closely with hotel partners, UNO's roadmap remains focused on delivering unmatched reliability, speed, and distribution intelligence for a rapidly evolving hospitality landscape.

About RateGain

RateGain Travel Technologies Limited is a global provider of AI-powered SaaS solutions for travel and hospitality that works with 3,200+ customers and 700+ partners in 100+ countries helping them accelerate revenue generation through acquisition, retention, and wallet share expansion.
