(e) the particulars of the proposed alteration or change in the objects;

The Company proposes to make strategic investments, up to an aggregate amount not exceeding ₹ 2924.59 Lakhs, in one or more emerging and high-growth technology-driven entities with a view to strengthening its long-term business preparedness, broadening its technological capabilities, and enhancing value creation for its shareholders.

Such investments shall be made by way of investing into securities issued on a preferential allotment basis, including, without limitation, Compulsory Convertible Debentures (CCDs), equity shares, preference shares, or any other securities, instruments or hybrid securities permissible under applicable laws and regulations.

The target investee entity(ies) shall be those engaged in, or contributing to, the development of advanced and innovative technologies, including but not limited to:

1. Software Development, Digital Platforms and Enterprise Technology Solutions;
2. Artificial Intelligence (AI), Machine Learning (ML) and Data-Driven Analytical Technologies;
3. Internet of Things (IoT), Connected Devices and Smart Technology Ecosystems;
4. Augmented Reality (AR), Virtual Reality (VR), Mixed Reality (MR) and other immersive digital technologies;
5. Game Development, Gaming Infrastructure, Interactive Media and Digital Entertainment Technologies;
6. User Experience (UX) and User Interface (UI) Design, Digital Experience Engineering and Product-Design Technologies; and
7. Other allied, ancillary or emerging technology sectors that are synergistic with the Company's strategic roadmap and digital transformation initiatives.

This alteration is intended to enable the Company to deploy a portion of the unutilised IPO proceeds towards high-potential investment opportunities that align with evolving market trends, support innovation-led expansion, diversify financial exposure, and provide the potential for superior returns compared to conventional treasury avenues, while ensuring prudent risk management and compliance with applicable corporate governance standards."

(f) the justification for the alteration or change in the objects;

As on the date of this Notice, the Company has not fully utilised the IPO proceeds as originally envisaged and disclosed in the Prospectus dated 11th August 2023. An amount of approximately ₹2924.59 Lakhs continues to remain unutilised due to a combination of internal and external business factors. In accordance with the provisions of the Companies Act, 2013 and SEBI (ICDR) Regulations, such unutilised funds have been temporarily parked in fixed deposits with Scheduled Commercial Banks and other permitted treasury instruments, strictly in compliance with the approved objects and applicable regulatory requirements.

The primary reason for the delay in deployment of the IPO proceeds is the slowdown in capital expenditure activities arising from evolving industry conditions, shifting customer preferences, regulatory changes and the Company's reassessment of its earlier expansion plans in light of prevailing market challenges. These circumstances necessitated a cautious approach to large-scale capital commitments until there was greater clarity on long-term sectoral demand patterns and business sustainability.

After detailed deliberations, review of financial forecasts, evaluation of prevailing technological trends, and taking into account the responsibility to ensure optimal utilisation of shareholder funds, the Board of Directors has proposed to modify the existing object to permit deployment of a portion of the unutilised IPO proceeds towards strategic investments in promising technology-driven companies. This proposed change is considered justified on the following grounds:

1. Alignment with Emerging Market Dynamics:

The technology sector—including artificial intelligence, machine learning, IoT, AR/VR and digital product development—is undergoing accelerated growth, offering significant long-term value creation opportunities. Strategic participation in these sectors will enable the Company to remain competitive and relevant in a rapidly transforming business environment.

2. **Optimisation of Idle Funds:**

Continuing to maintain large unutilised funds in fixed deposits provides only limited returns. Deploying the funds into carefully selected, high-potential technology entities can generate **superior financial outcomes**, thereby enhancing return on capital employed and overall shareholder value.

3. **Support for the Company's Long-Term Digital and Innovation Agenda:**

Investments in technology-oriented entities will complement the Company's strategic objectives of digital transformation, capability enhancement and future-ready operational frameworks. The proposed alteration enables the Company to integrate emerging technological advancements into its long-term growth model.

4. **Prudent and Responsible Financial Management:**

The change in objects ensures efficient utilisation of IPO proceeds in a regulated, transparent and shareholder-approved manner, consistent with good corporate governance practices and ensuring that funds are deployed in sectors with measurable growth potential and acceptable risk profiles.

5. **Stakeholder Value Maximisation:**

The proposed object modification is expected to deliver sustainable value to shareholders and other stakeholders by diversifying income streams, mitigating concentration risks, and enabling access to innovation-driven business opportunities.

In view of the above, the Board is of the considered opinion that the proposed alteration of the IPO object is in the best interests of the Company, its shareholders, lenders and all other stakeholders, and is necessary to ensure optimal utilisation of the unutilised IPO proceeds in line with the Company's long-term strategic vision.

(g) the amount proposed to be utilised for the new objects;

The Company proposes to utilise a sum **not exceeding ₹2924.59 Lakhs** out of the unutilised IPO proceeds for the revised objects. This amount shall be deployed towards making strategic investments in eligible technology-focused entities, in accordance with the parameters and investment framework approved by the Board of Directors and subject to compliance with applicable laws, regulations and governance standards.

(h) the estimated financial impact of the proposed alteration on the earnings and cash flow of the company;

The Company's proposal to deploy a portion of the unutilised IPO proceeds into strategic investments in high-potential technology-driven entities is expected to support long-term value creation and enhance opportunities for superior returns vis-à-vis traditional treasury placements. However, the **precise financial impact** of such investments on the Company's **earnings, profitability metrics, and future cash flows** cannot be reliably quantified at this stage, as the returns will depend on multiple external and investee-specific factors including market performance, sectoral trends, business scalability and financial outcomes of the respective investee companies.

Accordingly, while the proposed alteration is intended to strengthen the Company's strategic position and potentially improve shareholder value over time, the **estimated financial impact on earnings and cash flows is presently not determinable**.

(i) The proposed time limit within which the proposed varied objects would be achieved:

The Company proposes to deploy the unutilised IPO proceeds towards strategic investments in high-potential, technology-driven entities, aimed at fostering long-term value creation and enabling superior risk-adjusted returns as compared to conventional treasury placements. Given the inherent evaluation parameters, due diligence requirements and selection criteria involved in identifying suitable investee companies, it is not feasible to provide an exact timeline for completion of the deployment. However, the Company currently expects that the proposed utilisation of such unutilised funds shall be substantially achieved by December 2029.

(j) The risk factors pertaining the new objects:

The proposed deployment of unutilised IPO proceeds into technology-focused investee entities entails inherent risks, including market volatility, technological obsolescence, regulatory changes, operational performance of the target companies and potential delays in execution of investment opportunities. Further, the risk-return profile of

such strategic investments may differ from traditional treasury instruments, and there can be no assurance of achieving the expected returns. The Company will, however, undertake appropriate due diligence and adopt a prudent evaluation framework to mitigate these risks to the extent feasible.

(k) the other relevant information which is necessary for the members to take an informed decision on the proposed resolution;

No additional information is considered necessary beyond what has already been provided in this Explanatory Statement.

The aforesaid alteration the objects of the issue, if dissented by 10% or more of the present and voting shareholders, the Company and the promoters will comply with the provisions pertaining to exit opportunity to dissenting shareholders under Schedule XX read with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

(l) the place from where any interested person may obtain a copy of the notice of resolution to be passed:

Any interested person may obtain a copy of the notice of the resolution from the registered office of the Company during business hours or may access it from the Company's website www.yudiz.com.

The Board believes that the proposed enabling authorisation will provide the necessary flexibility to the management to seize attractive investment opportunities in promising technology companies as and when they arise, thereby enhancing shareholder value.

None of the Directors or Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the proposed resolution, except to the extent of their shareholding in the Company.

The Board accordingly recommends the Special Resolution set out at Item No. 01 of the accompanying Notice for approval of the Members.

- Extend inter-corporate loans or guarantees to subsidiaries, joint ventures, associates and other strategic technology entities,
- Provide corporate guarantees or security for borrowings availed by group or investee companies.
