Quarterly Highlights

Management Commentary

Mr. Mandar Joshi

WHOLE TIME DIRECTOR AND CEO

Indian GDP Growth likely to be remained robust ~7% range in Q3 FY26 supported by:

- Festive season consumption and GST rationalization lifting demand
- Continued government capital expenditure
- Resilient service sector activity

However softening exports and global headwinds could temper the pace relative to Q1 and Q2 FY26, but the Indian economy is still expected to clock healthy growth in GDP for Q3 FY26, broadly consistent with the overall FY26 expansion trajectory.

Overall Q3 FY26 was a mixed quarter for the Indian Chemical Industry as some companies delivered strong revenue growth, while others struggled with margin compression, global demand softness, exchange fluctuations volatile raw material prices, and global trade uncertainties. Further the one-time impact of new labour codes affected earnings of the companies during the quarter. This also led temporarily lower reported performance, even when underlying operational performance remained healthy.

However, IVP Ltd. delivered a strong set of results in Q3 FY26 with 12% YoY revenue growth compared to the same period last year and Profit After Tax (PAT) jumped significantly by 145%. Further on 9-month basis, the revenue increased by 10% and Profit After Tax (PAT) improved by 31%.

Looking ahead, we remain optimistic about the remainder of FY26. With India's economic momentum expected to continue, IVP is well-positioned to capitalize on emerging opportunities. Our focus remains on:

- **Expanding domestic market share**
- **Leveraging our diverse product portfolio**
- **Enhancing customer engagement and service levels**

We continue to monitor global developments closely, especially in raw material sourcing and trade dynamics, and remain committed to delivering sustainable value to all stakeholders.
