## **Triveni Power Transmission Announces Maiden Results Post-Listing**

### **H1 Revenue at ₹189 Crores with a Closing Order Book of ₹626 Crores, Supporting Growth Outlook**

- Q2 revenue stood at ₹116 crores, up 5.7% year-on-year; consolidated EBITDA was ₹42 crores, with a margin of 36.1%
- H1 revenue up by 17.8% to ₹189 crores, with EBITDA of ₹67 crores and PAT of ₹41 crores
- H1 order bookings grew 94.7% year-on-year to ₹330 crores; closing order book stood at ₹626 crores as of September 30, 2026
- Defence revenue grew more than threefold

**Noida, October 23, 2026:** Triveni Power Transmission Limited (TPTL), a leading manufacturer of high-speed gearboxes and engineered power transmission solutions, today announced its financial results for the quarter and half year ended September 30, 2026. In its first results announcement since listing, the Company reported Q2 FY27 revenue of ₹116 crores, up 5.7% year-on-year and 59.9% sequentially. EBITDA was reported at ₹42 crores, with a healthy margin of 36.1%, while profit after tax (PAT) stood at ₹26 crores.

For H1 FY27, revenue grew 17.8% year-on-year to ₹189 crores. EBITDA was ₹67 crores, at a healthy margin of 35.7%, and PAT stood at ₹41 crores. The Company generated free cash flow of ₹13 crores after capital expenditure of ₹31 crores.

Order bookings rose 47.7% year-on-year to ₹126 crores in Q2 and 94.7% to ₹330 crores in H1. The closing order book stood at ₹626 crores as of September 30, 2026, up 57.2% year-on-year.

The Aftermarket business maintained a consistent performance, contributing 26.7% to the revenue. Growing demand is reinforcing the importance of lifecycle services, replacements and upgrades.

The Defence business on the other hand recorded revenue growth of 3.3 times year-on-year in Q2 and 3.7 times in H1, while scaling up execution across marine gearboxes, propulsion shafting and related systems. A new facility is supporting specialised defence and marine manufacturing, including propulsion shafting, casing machining and ship-system equipment.

TPTL is progressively developing capabilities in marine gearboxes, propulsion shafting, stabilisers, steering gear and related marine systems. Product development initiatives across sleeve couplings, steering gear, stabilisers and plummer blocks are aimed at increasing indigenous technology content and competitiveness. Programme timelines remain linked to customer approvals and procurement cycles.

Commenting on the Q2FY27 results, **Tarun Sawhney, Vice Chairman & Managing Director, Triveni Power Transmission Limited**, said: *“TPTL delivered a resilient performance in Q2 FY27, with revenue growing 6% year-on-year and 60% sequentially. The Company continued to generate positive free cash flow while investing in manufacturing capability, R&D and digital initiatives to strengthen its engineering and execution capabilities. The medium-term outlook is supported by opportunities across specialised high-speed industrial gears, lifecycle Aftermarket services and the localisation of defence and marine systems.”*

*Commenting further about TPTL’s priorities he added, “Our immediate business priorities include disciplined opportunity conversion, deeper global OEM relationships, expansion of its international Aftermarket footprint and execution of the Defence order book. The Company remains committed to sustainable growth, healthy returns on capital and consistent cash generation.”*

With more than 50 years of engineering experience, TPTL has 450+ employees and 14,000+ installations across 80+ countries. Its manufacturing capabilities include gearboxes of up to 2,800 mm in diameter, supported by in-house testing capability of up to 90 MW.

#### **About Triveni Power Transmission Limited**

Triveni Power Transmission Limited (TPTL) is a leading manufacturer of high-speed gearboxes and engineered power transmission solutions. Founded in India in 1976, the company has served critical industries worldwide for over five decades through its advanced Original Equipment Manufacturer (OEM) solutions, Defence solutions, Aftermarket Services, Refurbishment, Upgrades, and Lifecycle Support for demanding industrial applications.

With 14,000+ installations across 80+ countries and over 50 GW of installed gear capacity, TPTL is recognised for its engineering excellence, precision manufacturing, and customer-centric approach.

TPTL is part of the Triveni Group, which has a legacy spanning nearly a century. In 2026, TPTL became an independent listed entity following its demerger from Triveni Engineering & Industries Limited (TEIL), marking a new chapter focused on innovation, agility, lifecycle reliability, and global expansion.
